## OUTLOOK

Q1 ended strong for PHP fixed income instruments as inflation levels continue to trend downward towards its target of 2-4%. Yields on the secondary market sustained its decline on the belly of the curve as well as long-dated government securities. With inflation rate subsiding, Market is expecting the Monetary Board to cut policy rates by at least 50bps by the 3<sup>rd</sup> Quarter of the year. Growth is likely to trend the 6.0% levels even the effects from the delay of the approval and release of the National Budget and the prolonged El Nino remains to be a threat.

The Monetary Board as expected, retained interest rate on the BSP's overnight reverse repurchase (RRP) facility unchanged at 4.75 percent, as well as interest rates on the overnight lending and deposit facilities.
